

01 - PREMIUM ACCESS

Theranostics Hub Intelligence Access

Premium access to the Theranostics Hub: searchable trial landscape, sponsor mapping, target pipeline, centre scoring and curated strategic views for radioligand therapy.

Best for	Core promise
Large pharma, radiopharma, medtech, investors and strategy teams that need a live view of the theranostic landscape.	Premium access to the Theranostics Hub: searchable trial landscape, sponsor mapping, target pipeline, centre scoring and curated strategic views for radioligand therapy.

Brief explanation

- ✓ Full access to the Theranostics Hub interface
- ✓ Filters by target, pathology, phase, sponsor, country and trial status
- ✓ Centre scoring and ranking by activity and strategic relevance
- ✓ Monthly data refresh and short partner briefing
- ✓ Source transparency: CT.gov, CTIS/EU CTR, ICTRP and sponsor pages

Detailed explanation

What the partner receives	A dedicated access key to the Theranostics Hub, with landscape dashboards, clinical trial tables, centre rankings, sponsor views and market activity indicators.
Business value	The partner can identify active centres, map competitors, follow pipeline movements and understand where clinical and commercial activity is concentrated.
Operational workflow	Nucleascope refreshes the dataset monthly, flags major changes, and provides a concise update note to help the partner act on the information.
Data governance	Official registries are prioritised. Sponsor and institutional sources are labelled separately. Inferred or undisclosed sites must be marked as such and not mixed with validated sites.
KPIs	Number of active trials, active sponsors, centre rankings, country footprint, target maturity, new trial alerts and changes in sponsor activity.

Recommended call-to-action

Use this PDF link from the commercial tile as a short explanation document. For a prospect, the next step is a discovery call to define scope, countries, target, expected deliverables and compliance requirements.
