## Detailed explanation

What the partner receives	A structured PDF report covering trial activity, centre distribution, sponsor landscape, phase maturity, country footprint and strategic interpretation.
Business value	The report converts the dashboard into a board-ready or team-ready document that supports planning, prioritisation and competitive analysis.
Operational workflow	The partner selects the scope: target, molecule, country, competitor set or indication. Nucleascope produces a concise report with charts, tables and conclusions.
Data governance	Every major factual point should be traceable to registry, sponsor, institutional or curated Nucleascope data. Confidence levels should be visible when needed.
KPIs	Number of mapped trials, active sponsors, top centres, centre maturity tiers, geographic footprint, gaps and opportunity areas.
